

# PALLADIO

## PEDIGREE

Palladio's Dutch Warmblood pedigree combines many famous horses from European warmblood breeding into one colorful, talented stallion. Palladio's sire, the Holsteiner Caletto I, was one of the most famous sons of the immortal sire Cor de la Bryere. Caletto I himself needs little introduction as he was one of the top horses showing in International Grand Prix jumping competitions from 1981 to 1985 as well as a notable sire of top performers alongside his famous brothers Caletto II and Caletto III.

Palladio's dam, Jorinde, an Elite Dutch mare, competed in both dressage and jumping before going on to produce many great foals. Her pedigree includes the fabulous performance lines of L. Ronald, the most famous son of the legendary G Ramiro Z, as well as the great performance line of Maykel.

## PERFORMANCE

Palladio's remarkable willingness became apparent early in his training. He has been ridden and shown both by trainers and his amateur owner.

## KWPN, 16.2, 1997 RED BAY TOBIANO,

\$500 booking, LFG - 2 yr free return.  
Breeding Licenses: Old NA, BWP-  
AD, RPSI, (GOV - individual breed-  
ing permits available)*

Palladio's show record includes competing and winning in Preliminary/Level 5 Jumpers, showing successfully with top ribbons in the Regular Working Hunter ring, and schooling 2nd/3rd level dressage. In 2002 he was the Champion stallion in the Cosequin/USDF Northwest Series Finals for Mature Stallions. His excellent character makes him enjoyable to show and a pleasure to work around. Palladio successfully completed the 2004 100 Day Federation Stallion Testing in Ohio finishing sixth overall with a super score of 111.97, and ranking fifth in dressage (108.10) and sixth in jumping (116.26).

## PROGENY

Palladio's first foal crops have included dressage breed show winners, USDF-BC qualifiers, hunter breeding winners, Premium foals with Old NA, Gold and Silver Premium award foals with RPSI, several site champion colts and fillies, and incredibly talented young riding horses. His foals show amazing aptitude over fences, excellent movement, and fabulous work ethics. His first foal crop was born in 2002 and we expect to see his first foals entering competition in 2007.
