

ROC USA

PEDIGREE

• HIS SIRE Olympic Idocus was the winner of the US 100 day Stallion Performance Test in 1993. Roc's pedigree reads like a who's who of stellar athletes and successful sporthorse sires. Included in Roc's lineage is the legendary Voltaire, the first of the super star performance stallions to go on and prove himself equally as important as a breeding stallion. Voltaire's offspring successfully represent him in all major arenas - their performances aiding in his being ranked 9th in the top 50 sires in the ten years from 1991 to 2000. By Furioso II and out of a daughter of the great Hanoverian stallion, Gotthard, Voltaire is well known as a sire of brilliant jumpers with great "can do" temperaments. Roc's maternal grandsire is Galoubet (Alme/Viti) whose offspring include international competitors Baloubet du Rouet (who won three World Cup finals in a row), Gatoubet du Rouet, and Quickstar. Galoubet's sire was Almé, one of the all time great jumping stallions. Almé was by the great French stallion, Ibrahim out of Girondine. Also found in Roc's pedigree are the equally influential Joost (Consul/Ulana), Le Mexico, Turn To (xx) and Braxton Bragg, a top producer of Thoroughbred sporthorses.
